1 Listen and read. How are the children in the photos different from most children? Posłuchaj nagrania i przeczytaj tekst. Co wyróżnia z grupy rówieśników przedstawione na zdjęciach osoby?

AMAZING TALENT

James can tell you the time, but he hasn't got a watch.

Adam is ten, but he can play chess like an adult. And

Chris can speak twenty-four languages, but he can't talk
to people and he hasn't got any friends. These children
have got problems with everyday life, but they've also got
amazing talents.

Chen Lian is eleven and he's from China. He can't talk very well, but he can draw amazing pictures.

Kyle is nine. He's from the United States. He isn't very good at school, but he's got an amazing memory for dates. You can say a date – for example, 13 May 1998 – and he can tell you the day of the week – Wednesday.

Most people can't do these things, but everyone is good at something! What are you good at?
