

## Zajęcia logopedyczne

Wyrażenia dźwiękonaśladowcze stanowią ważny etap kształtowania się mowy, są werbalnym kontaktem dziecka z otoczeniem. Usprawniają aparat mowy. Ćwiczą sprawność i koordynację narządów mowy, poprawne oddychanie, fonację, prozodię, słuch fonematyczny i artykulację.

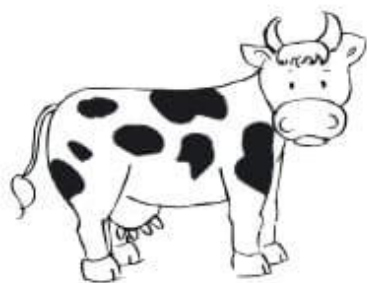

### Propozycje ćwiczeń.

Zadajemy dziecku pytanie: Kto robi Hau , Miau ..... Obrazki można wyciąć i połączyć w całość.

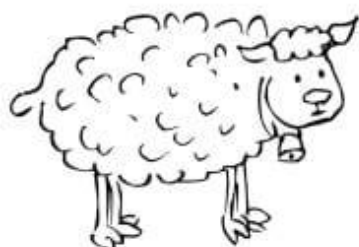

Dziecko może dopasować podpisy.

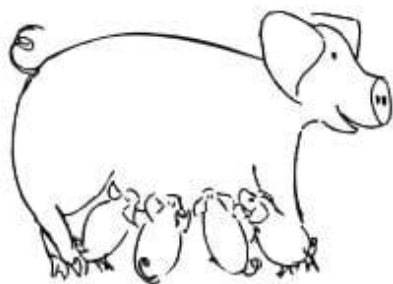

<b>HAU</b>	<b>MIAU</b>	<b>KWA</b>	<b>iii</b>
------------	-------------	------------	------------
